

Application Number 09/858,185
Amendment dated October 29, 2004
Reply to Office Action of July 29, 2004

REMARKS

The applicants greatly appreciate the Examiner's efforts in carefully reviewing the Amendment filed on April 16, 2004 as well as the claims pending in the application to provide suggestions for amendments to the application.

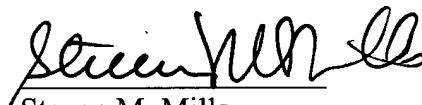

With regard to the prior amendments made to the specification in the paragraph at page 19 line 19 through page 20 line 3, the applicants have amended the paragraph to change the word "valve" to "port," in lines 6 and 12 of the amended paragraph.

Claims 1-4, 8-12 and 16 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. Claims 1 and 9 are amended as suggested by the Examiner to insert "above the temperature control fluid in the reservoir" after the word "outlet" in two places of each claim. As a result, it is believed that the rejections are overcome, and reconsideration of the rejections is requested.

In view of the amendments to the claims and the foregoing remarks, it is believed that, upon entry of this Amendment, all claims pending in the application will be in condition for allowance. Therefore, it is requested that this Amendment be entered and that the case be allowed and passed to issue. If a telephone conference will expedite prosecution of the application, the Examiner is invited to telephone the undersigned.

Respectfully submitted,
